## Can I connect multiple solar panels to a single FieldKit?

Lindsay Starke - 2025-04-02 - Comments (0) - FieldKit Stations

No. FieldKit's charging rate is fixed regardless of how many panels are connected, so adding additional panels will not make it charge faster, and in many configurations it could damage the hardware. If you have a specialty application where sunlight is very poor, then a single 12V panel in a larger wattage can sometimes help. If you run into a special situation like this, reach out to us and we can help you figure out the best approach.
