For FieldKit Weather, what kind of mounting equipment do you recommend?

Lindsay Starke - 2026-04-02 - Comments (0) - Sensors and Modules

While we do not partner with any third party dealers, we have had experience using the following items:

Clamps: Pole to Pole Mount

Ambient Weather Mast to Mast Mounting Kit (Note: When mounting the FieldKit mast, you need to be mindful to prevent rotation, or your wind direction data will be...wonky.)

Tripod for Weather Kit

However, these items are not necessary, and we have successfully mounted weather stations using what we could find in a hardware store in a town in the Colombian Amazon.

Still need help with mounting your weather station? Check out this discussion on our community forum, read this blog post walking you through the process, and feel free to reach out to get tips and ask questions!
