For FieldKit Weather, what kind of mounting equipment do you recommend?

Lindsay Starke - 2025-07-07 - Comments (0) - Sensors and Modules

While we do not partner with any third party dealers, we have had experience using the following items:

[Clamps: Pole to Pole Mount](#)

[Ambient Weather Mast to Mast Mounting Kit](#) (Note: When mounting the FieldKit mast, you need to be mindful to prevent rotation, or your wind direction data will be...wonky.)

[Tripod for Weather Kit](#)

However, these items are not necessary, and we have successfully mounted weather stations using what we could find in a hardware store in a town in the Colombian Amazon.

Still need help with mounting your weather station? Check out [this discussion on our community forum](#), read this [blog post walking you through the process](#), and feel free to reach out to get tips and ask questions!
