I don't live in the United States. Can I order a FieldKit?

Lindsay Starke - 2026-06-11 - Comments (0) - Orders and Shipping

We’re a small team with a big mission, and long term we want our technology to be available worldwide, especially to people who have lacked access to research-grade scientific equipment. However, international selling and shipping is complicated, especially in these unusual times. We are currently, therefore, only able to ship FieldKits within the United States.

We’ll be expanding our availability to other countries as soon as we can. If you’d like to ensure your country is next, reach out to let us know by filling in this International Shipping Request Form.
