I need to transfer my station to a different FieldKit account. How do I do that?

Lindsay Starke - 2025-04-02 - [Comments \(0\)](#) - [Accounts, Projects, and Station Ownership](#)

Currently, only FieldKit staff can transfer station ownership. If you need to do this, send us a support ticket with the:

- Name(s) of the station(s) to be transferred
- Current station owner account
- New station owner account

We can then transfer station ownership to the desired account. **Please note that you will need to have the desired owner account set up in the FieldKit portal before we can transfer ownership.**

After we have done this, the stations will disappear from the former account and appear in the new account automatically--there is no need to accept transfer.
