App Release 3.0.6

2026-07-06 - Lindsay Starke - [Comments \(0\)](#) - [App Updates](#)

We're happy to announce some updates to the app on both iOS and Android!

Bug Fixes:

- Fixed an issue where when you repeat calibration on the same module, it shows multiples in the same bay
- Fixed an issue with the deployment timer countdown.
- Fixed broken "Station Disconnected" help links
- Fixed CSV export saving minutes as months
- Fixed firmware lookup order
- Fixed Pre-Deployment Checklist lin

Improvements:

- Clarified language around the application
- Added translations in Spanish
- Added a calibration confirmation page with calibration details
