## FieldKit Portal Release 0.4.9

2026-06-08 - Lindsay Starke - [Comments \(0\)](#) - [Portal Updates](#)

More updates to the FieldKit Portal!

### Enhancements

We've been enhancing admin tools to make it easier for our team to assist users having issues with their station data. This includes [a cool new search function](#).

### Bug Fixes

We fixed an issue where [stations should display recent data but didn't](#).

We fixed a bug with [saving a data view as a SVG](#).

We fixed an [issue with station state icons](#).

We fixed an [issue with EULA on login](#).

And we did [some future proofing by fixing this bug](#).

### User Experience Updates

We've made it [clearer when a sensor is measuring level](#).

### FloodNet NYC:

We built out a white-labeled portal instance for the FloodNet project a while back. Just a few fixes here, like ensuring seamless [translation into Spanish](#), making it [clear when a monitoring station is inactive](#), and made a few FloodNet-specific elements [hidden on the main FieldKit portal](#).
