## When will I receive my FieldKit product?

Lindsay Starke - 2025-04-02 - Comentarios (0) - Orders and Shipping

We are a small team building out our logistics processes for a complex product, so when FieldKits are available, it may take as long as 3-4 weeks for an order to be shipped to you. However, we understand that some customers are working within tight travel schedules. If you are working with a deadline and need your FieldKit to arrive within a certain time frame, please log a ticket with what you would like to purchase and your timeline and our team will let you know if we can make it happen.
